

The top lip is 6mm tall

6mm is the thickness of the body of the seat.

The bottom lip is 6mm tall

We suggest if using these seats with the weakest 4 lb rate helpers, you may need to reduce one lip down, due to the small solid height. It naturally depends on the size of the lip on your shock absorber seat.

Please see figures below:

2" Free Length x 2.5" ID Helpers

Part No: Solid Heights:

2H2.5 (4 lbs)	7.5mm
2H45X2.5	12mm
2H60X2.5	18mm
2H80X2.5	15mm
2H110X2.5	13mm
2H150X2.5	18mm
2H210X2.5	16mm
2H280X2.5	20mm
