1-5 NIL    6-9 10%    10-20 15%    21-31 20%    32-40 25%    40 PLUS 30%

For any coil spring not covered by this list please enquire.

Payment with order, carriage and VAT to be added.

Coil springs for most Saloon cars available or can be produced to specifications supplied.

## **Special Type Springs / Safety Clips**

We are now able to supply any type of Helical Compression Extension Springs.

Safety Clips i.e. R clips, Wheel spring clips that retain the large single wheel nuts and Bi-metallic Springs.

Some basic examples are shown on the inside of the back cover.

## **Material Specification**

Springs are made from the highest quality Silicon Chrome & Chrome Vanadium.

A comprehensive range of size is stocked at our works which is essential

to enable quick deliveries to be made.

## **Quality Control**

All deliveries of steel are certified to ensure that only the highest quality of materials are used.

These show cast and analysis details which are recorded and checked.

## **Heat Treatment and Shot Peening:**

All springs prior to finishing undergo tightly controlled hardening and tempering processes to ensure minimum decarbonisation and this is followed by shot peening which increases the fatigue life of the spring.

## **Design**

Most suspension springs require the design to give the maximum travel from free length to solid or "bump" length. The design takes into account the parameters such as outside diameter, bar diameter and number of free coils.

## **Powder Paint**

We have our own in house powder paint facility, this enable's us to improve the appearance and finish of our suspension springs.

All new stock springs will be in Black Polygloss finish. We are also stocking other colours, Red, Yellow, Orange, White, Silver and Blue, if you require any springs painted in those colours, there is an additional charge and notice is required.

If you need other parts powder coated or have any enquiries regarding the above, please do not hesitate to contact us.

## **Ink Jetting**

Most suspension springs can now be ink jetted with a brand name, specific part number or team name. There is a small charge for this service which adds professionalism if reselling the products.
